<p>4.3</p>	<p>Budget Adjustment: Clark Planetarium requests \$140,475 increase to the budget of the Annex Remodel on 400 West due to construction cost increases. The additional budget will come from their restricted fund balance</p>	<p>Clark Planetarium requests a project true-up for the re-budgeted amount of the Annex Remodel on 400 West and an increase to the total budget from the restricted fund balance. The Annex project construction bids exceed the total project budget. The significant increase and our options for proceeding have been evaluated with the assistance of Facilities Management. When the architect calculated the probable cost estimate in September 2023, costs from another county project with similar features were used as the basis. Facilities Management determined the reason(s) that the bids were higher than estimated, include (1) mechanical and plumbing labor costs, (2) tenant improvement in a confined location at Gateway, and (3) volume of space due to high ceilings. We have also consulted with a third-party cost estimator. They confirmed that the cost per square foot is average for tenant improvements and advised that re-bidding would likely lead to higher costs. After evaluating the cost/benefit of continuing with the current bids or rebidding, the prudent decision was to request a budget adjustment using Planetarium's restricted fund balance, which was set aside for capital projects. Additionally, the re-budgeted amount for the project needs to be true-up. Two encumbrances were released in December and fell to unassigned fund balance. With the budget adjustment and true-up, the Planetarium can accept the current bid and move forward with the annex expansion. The completion of the project will enable the Planetarium to reach more people and inspire a deeper interest in science-related experiences</p>
<p>4.4</p>	<p>Budget Adjustment: Parks and Recreation requests to transfer \$124,000 in under-expend budgets from multiple completed projects to the Taylorsville Pool renovation project. This additional budget will allow them to accept the lowest bid and have the project completed by the opening of the outdoor pool season</p>	<p>Parks & Recreation is requesting to transfer \$124,000 from completed projects to the Taylorsville Pool renovation project. The pool renovation began in 2023 and has been re-budgeted for 2024. The project is labor-intensive and encompasses removing the existing liner, cleaning surfaces, installing new plaster and tile, and removing existing pool toys and replacing with new toys.</p> <p>The project was bid out in December 2023, but increases in construction costs caused the lowest bid to exceed the project budget. The apparent low bid vendor has agreed to hold their pricing through February 18, 2024.</p> <p>Multiple TRCC projects, re-budgeted for 2024, have been completed with cost savings. Repurposing those savings to the Taylorsville Pool project will allow the current low bid to be accepted before the costs escalate even more, and the project can be completed by the opening of the outdoor pool season. No new County dollars are requested</p>
<p>4.5</p>	<p>Budget Adjustment: Flood Control requests a technical adjustment to prioritize funding for 5 projects and reallocate the \$350,000 reduction due to the tax revenue shift from Flood Control to General Fund during the Fall budget process.</p>	<p>This budget adjustment is necessary to prioritize funding for 5 projects. It includes the reallocation of \$350,000 that was reduced as part of the 2024 budget process</p>

5.1	Public Hearing to Receive Comment on Comprehensive Updates and Revisions to Salt Lake County Code of Ordinances, Chapter 18, entitled “Subdivisions”	Public hearing to receive comment on comprehensive updates and revisions to Salt Lake County Code of Ordinances, Chapter 18, entitled “Subdivisions.” Very few changes have been made to Title 18 since Salt Lake County changed its form of government at the turn of the century, and much has taken place since then, including a major change of government and service provider for what at that time was the unincorporated county. In addition, SB174 was passed during the 2023 Utah Legislative Session that required certain elements be updated to Title 18 by February 1, 2024. MSD Planning, with significant input from the District Attorney’s Office and Mayor’s Office, has prepared a comprehensive update of Salt Lake County’s subdivision ordinances
5.2	Public Hearing to Receive Comment on Comprehensive Updates and Revisions to Salt Lake County Code of Ordinances, Chapter 19.12, entitled “Forestry and Recreation Zones” and Chapter 19.54, entitled “Foothill Agriculture Zones”	Public hearing to receive comment on updates and revisions to Salt Lake County Code of Ordinances, Chapter 19.12, entitled “Forestry and Recreation Zones” and Chapter 19.54, entitled “Foothill Agriculture Zones.” The primary problem driving the need for this update is water quality mandates from the State of Utah. The State of Utah has set a deadline for February 2024 by which Salt Lake County must implement non-structural (i.e., regulatory) Best Management Practices to protect waters from E. coli pollution or face the prospect of penalties like what Salt Lake County was required to pay in 2016 (a \$280,000 fine). Both the Salt Lake County Planning Commission and the Mountainous Planning Commission voted unanimously to recommend that the Salt Lake County Council adopt these proposed changes
