

# EPSDT

## EARLY and PERIODIC SCREENING, DIAGNOSTIC and TREATMENT

Get the well-child care your child needs! **EPSDT** (formerly known as CHEC) is a program for children who qualify for Medicaid. It provides well-child visits, dental care, hearing and vision screenings, mental health care, and immunizations.

**Expanded services:** Medically necessary services that your child needs that are not normally paid for by Medicaid can be covered through the EPSDT program. Examples: hearing aids, glasses, speech therapy, physical therapy, wheelchairs, and Autism Spectrum Disorder (ASD) related services.

### WELL-BABY HEALTH CHECKS
