

MAYOR JENNY WILSON'S BOOK & MEDIA CLUB

Dear Salt Lake County Residents,

I would like to invite you to join my community-wide **Book & Media Club!**

The Book & Media Club is an opportunity for our community to engage around a common theme or interest. We would love to have you participate!

This selection features *The Grand Rescue*, a true story of the 1967 Jenny Lake Rangers.

I wrote and produced *The Grand Rescue*, which recounts the legendary three day rescue on the North Face of the Grand Teton by seven national park rangers who were pushed to the edge of their abilities and cemented a lifelong bond.

This documentary holds a special place in my heart as **my father, the late Ted Wilson, is one of the heroic Jenny Lake Rangers highlighted in this film.**

While I was only two years old when my dad embarked on this treacherous 60 hour rescue mission, it was my honor to turn my family campfire lore into an inspiring documentary and it is my honor to share this harrowing rescue with you.

Please join me August 14th

Join me **Wednesday, August 14th at 7:30 pm**, to honor my father and his fellow park rangers at **Wheeler Historic Farm** central lawn (6351 S 900 E Murray, Utah 84121).

I look forward to engaging with you in a **panel discussion** followed by an **outdoor movie screening** of *The Grand Rescue*.

The panel discussion will be between Mayor Jenny Wilson, writer and producer of *The Grand Rescue*, original contributors to the film, and a current member of the Salt Lake County Search and Rescue team.

NOTE: Please bring your own chair or blanket as seating will not be provided.

“The Grand Rescue humbles us to the majestic Grand Teton, exposes the tenuous relationship of man and the mountain, reveals the endurance of the human spirit, and recounts one of the most infamous rescues of its time.”

The Grand Rescue

The Grand Rescue is a story about **a rescue that became legend**. In 1967, on the North Face of the Grand Teton, **seven rescuers risked their lives** to save a severely injured climber and his companion. **The rescue took three harrowing days, pushed the team to the edge of their abilities, and cemented a lifelong bond**. Remarkably, once safe, the injured climber publicly criticized the very men who risked their lives to save his. **Looking back after 40 years, the rescuers and survivors recount the trial with a mixture of honesty and unabashed candor**.

It was August 22nd around 2:00 pm when a young graduate student and his female climbing companion became stranded on a narrow ledge 13,000 feet high. A boulder had broken free and showered the climbers with rock fall leaving Gaylord Campbell with protruding compound fractures. The young national park rangers quickly went to work, relying on innate skill, instinct and trust. History was about to be made...**the rescue was the first one on the feared North Face** – an unprecedented rescue for its time, due to the climber's severe injuries and unknown terrain.
